In both the tenders only a single price bid was opened . The price quoted by the bidder Rash Comp Sys are also below the tender base rates . But the agency have not submitted the P.F. registration instead submitted the undertaking that as the agency have less than 10 employees the agency is not applicable for PF registration and if the agency further increase the employees , it would avail the registration . But it was objected by the other bidders present while opening the tender.

After the detail scrutiny of the papers submitted by the bidder the committee present while opening the tender , decided that asonly single price bid was qualified and opened in both the tenders there was no fair competition and hence may be the lowest rates may not have been received , which in turn may affect the company financially . Hence to safeguard the financial interest of the company and the discussion of the committee , it is proposed to cancel the tenders T-02 & T-03 and refloat the tenders later.
