Date: 11.04.2017

COMMERCIAL CIRCULAR No.284

Subject: Revision in Electricity Tariff with effect from 1 April, 2017 and Implementation thereof.

Reference: 1) MERC Tariff Order dt. 03/11/2016 in the Case No. 48 of 2016.
2) Commercial Circular No. 275 Dated 18.11.2016

The Maharashtra Electricity Regulatory Commission, in exercise of its powers under Sections 61 and 62 of the Electricity Act (EA), 2003, and in pursuance of the MYT Regulations and all other powers enabling it in this behalf, and after taking into consideration MSEDCL's submissions, the written and oral suggestions and objections received and the responses of MSEDCL, and all other relevant material, has issued Multi Year Tariff Order dated 03 November 2016 in Case No.48 of 2016.

Accordingly, the guidelines as under are issued for implementation of the said order of the Commission without prejudice to the rights of MSEDCL to take any action as provided in the law.

1) Date of Implementation:

- The revised tariffs as per this Order shall be applicable from 1 April, 2017 onwards till 31st March 2018.
- Where the billing cycle of a consumer is different from the date of applicability of the revised tariffs, the tariffs should be applied for the consumption on a pro rata basis. The bills for the respective periods as per the existing and revised tariffs shall be calculated based on the pro rata consumption (units consumed during the respective periods arrived at on the basis of the average unit consumption per day multiplied by the number of days in the respective periods falling under the billing cycle).

2) Industrial tariff for tyre retreading, remoulding and vulcanisation activity:

The Commission has now included the activities of tyre retreading, remoulding and vulcanisation in the Industrial category.

3) Start-up Power for Generating Units:

The start-up power requirement for Power Plants may be availed from the MSEDCL through a separate connection or through the existing evacuation infrastructure.

In the case of a separate connection, all the terms and conditions applicable to any consumer would be applicable. If a separate connection is not taken, the Power Plant shall have to enter into an agreement with the MSEDCL for contracting the demand for such start-up power.

In either case, the Demand Charge rate will be 25% of the rate approved for the HT Industry category, to the extent of the start-up demand contracted by the Power Plant for Black Start, or start-up after forced or planned outage.

However, this dispensation shall not be applicable to Power Plants having PPAs with the Distribution Licensee under Section 62 of the EA, 2003 which provide for netting off the energy drawn by the Generator with the energy injected into the grid.

4) Concession in Demand Charges for Electric Arc Furnace Industry:

The Commission noted that the Load Factor of Electric Arc Furnace units are around 28%. The Commission has decided to apply concessional Demand Charges of 75% of the Demand Charges applicable to EHV/HT Industry category,

5) EHV Supply Rebate:

As the Commission has determined separate tariffs for EHV, 33 kV and 22 kV & 11 kV voltage levels, the EHV Supply Rebate of 3% on Energy Charges, which was earlier applicable to consumers availing supply at Extra High Voltage having no arrears with MSEDCL, has been discontinued since 01.11.2016.

6) Rate of Interest on Arrears:

The rate of interest chargeable on the arrears of payment of billed dues shall be as given below:

Sr. No.	Delay in Payment (months)	Interest Rate per annum (%)
1	Payment made after 60 days and before 90 days from the date of billing	12%
2	Payment made after 90 days and up to 180 days from the date	15%
3	Payment made after 180 days from the date of billing	18%

Previously, the interest was charged after due date with a grace period of 15 days of disconnection notice. Hence the 15 days grace period for issuing of the notice need not be considered now & the Interest on Arrears can now be charged after 60 days from the date of billing.

7) **AG Rates as per MERC tariff & Govt. Subsidy:**

AG rates as per the MERC tariff and the Govt. subsidy for AG consumers is as follows

ACTION PLAN :-

For proper implementation of the revised Tariff Order, all the IT departments / field officers shall follow guidelines given below:-

- The revised tariffs are to be applied from 1st April, 2017 till further order.
- The Commission has approved the HT and LT tariff as indicated in booklets (Annexure "A") effective from 01/04/2017. All field officers are directed to download the same from MSEDCL's web site www.mahadiscom.in and adequate copies of these booklets should be printed and made available up to Section Level and also make available to outsider/consumer at the rate of Rs. 20/- per booklet.
- Tariff Order dt. 3rd November 2016 in Case No. 48/2016 should be made available up to Section Level.
- The field officers are directed to categorize properly the consumer in newly created tariff category/Redefined category by actual field inspection and the data to be immediately updated in the IT data base.
- Since the Commission has introduced voltage-based differential tariffs for the same categories of HT consumers at different voltage levels, the same is to be implemented with utmost care by carrying out the billing as per the respective voltage level thereby avoiding any consumer grievance arising out of it or any loss to MSEDCL. Proper voltage level feeding in the IT system must be therefore carried out.
- This Circular is just indicative in nature and not exhaustive, the detailed tariff order is to be referred for in-depth narrative.
- Genuine difficulties in implementation of the tariff order (pertaining to the Commercial Section) are to be referred to CE (Commercial) for taking up the issue with Hon'ble commission.

All field officers shall sensitize staff about the various aspects of the Tariff Order and give proper guidance to all the officers and the staff members working under them.

These are only the important guidelines and for actual implementation, the field officers are requested to refer the Detail Order of MERC dt. 03 November 2016 in Case No. 48/2016. All the stipulations & provisions are to be strictly followed.

All field officers are therefore requested to take due note of the revised tariff and follow the same hereafter.

Prompt Payment Discount

A prompt payment discount of one percent of the monthly bill (excluding Taxes and Duties) shall be provided to consumers for payment of electricity bills within 7 days from the date of their issue.

Delayed Payment Charges

In case the electricity bill is not paid within the due date mentioned on the bill, delayed payment charges of 1.25 percent shall be levied on the total amount of the electricity bill (including Taxes and Duties).

The rate of interest chargeable on the arrears of payment of billed dues shall be as given below:

Sr. No.	Delay in Payment (months)	Interest Rate per annum (%)
1	Payment made after 60 days and before 90 days from the date of billing	12%
2	Payment made after 90 days and up to 180 days from the date of billing	15%
3	Payment made after 180 days from the date of billing	18%

Load Factor Incentive

1. Consumers having Load Factor above 75% and upto 85% will be entitled to an incentive in the form of a rebate of 0.75% on the Energy Charges for every percentage point increase in Load Factor from 75% to 85%. Consumers having a Load Factor above 85% will be entitled to a rebate of 1% on the Energy Charges for every percentage point increase in Load Factor from 85%. The total rebate will be subject to a ceiling of 15% of the Energy Charges applicable to the consumer.
2. This incentive is applicable only to consumers in the tariff categories HT I: Industry, HT II: Commercial and HT IX: Public Services.
3. The Load Factor incentive will be available only if the consumer has no arrears with the Distribution Licensee, and payment is made within seven days from the date of the

electricity bill. However, it will be available to consumers in whose case payment of arrears in instalments has been allowed by the Distribution Licensee, and such payment is being made as scheduled. The Distribution Licensee shall take a commercial decision on the schedule for such payments.

4. The Load Factor is to be computed as follows:

$$\text{Load Factor} = \frac{\text{Consumption during the month in MU}}{\text{Maximum Consumption Possible during the month in MU}}$$

Maximum consumption possible = Contract Demand (kVA) x Actual Power Factor x (Total no. of hours during the month, less planned load shedding hours*)

* - Interruption/non-supply to the extent of 60 hours in a 30-day month.

5. In case the Billing Demand exceeds the Contract Demand in any particular month, the Load Factor Incentive will not be payable in that month. (The Billing Demand definition excludes the demand recorded during the non-peak hours, i.e., 22:00 hrs to 06:00 hrs and, therefore, even if the Maximum Demand exceeds the Contract Demand in that period, Load Factor Incentive would be applicable. However, the consumer would be subject to and shall have to pay the penal charges applicable for exceeding such Contract Demand.)

Penalty for exceeding Contract Demand

In case a consumer (availing Demand-based Tariff) exceeds his Contract Demand, he will be billed at the applicable Demand Charge rate for the Demand actually recorded, and also be charged an additional amount at the rate of 150% of the applicable Demand Charge (only for the Demand in excess of the Contract Demand).

Under these circumstances, the consumer shall not be liable for any other action under Section 126 of the EA, 2003, since the penal additional Demand Charge provides for the penalty that the consumer is liable to pay for exceeding his Contract Demand. In case a consumer exceeds his Contract Demand on more than three occasions in a calendar year, the action to be taken would be governed by the provisions of the Supply Code Regulations.

Additional Demand Charges for Consumers having Captive Power Plant

For consumers having a Captive Power Plant, additional Demand Charges at the rate of Rs. 20/kVA/month shall be payable only on the extent of the Stand-by demand component and not on the entire Contract Demand. The additional Demand Charges will be levied on the Stand-by component only if the consumer's demand exceeds his Contract Demand.

Consumers' Security Deposit

- 1) Subject to the provisions of Section 47(5) of the Electricity Act, 2003, the Distribution Licensee shall require any person to whom supply of electricity has been sanctioned to deposit an amount as security in accordance with the provisions of Section 47(1) (a).
- 2) The amount of the Security Deposit shall be equal to the average of three months" of billing or the billing cycle period, whichever is lesser. For determining the average billing, the average of the billing to the consumer for the last twelve months or, where supply has been provided for a shorter period, the average of the billing of such shorter period, shall be considered
- 3) Where the Distribution Licensee requires security from a consumer at the time of commencement of service, the amount of such security shall be estimated based on the tariff category and Contract Demand/Sanctioned Load, Load Factor, diversity factor and number of working shifts of the consumer.
- 4) MSEDCL shall re-calculate the amount of Security Deposit payable, based on the actual billing of the consumer, once in each financial year.
- 5) Where the amount of Security Deposit maintained by the consumer is higher than the security required to be maintained under the Supply Code Regulations, the Distribution Licensee shall refund the excess amount to the consumer in a single instalment.
- 6) Such refund shall be made upon a request of the person who gave the security, and with intimation to the consumer if different from such person; and shall be made, at the option of such person, by way of adjustment in the next bill or by way of a separate cheque payment within 30 days from the receipt of such request;
- 7) No refund shall be required to be made where the amount of refund does not exceed 10% of the amount of the Security Deposit required to be maintained by the consumer or Rs 300/-, whichever is higher.
- 8) Where the amount of security re-assessed as above is higher than the Security Deposit of the consumer, the Distribution Licensee shall be entitled to raise a demand for

additional security deposit. The consumer shall be given not less than 30 days to deposit the additional security pursuant to such demand.

- 9) Upon termination of supply, the Distribution Licensee shall, after recovery of all amounts due, refund the remaining amount of security to the person who deposited it, with intimation to the consumer if different from such person.
- 10) A consumer - (i) with a consumption of electricity of not less than one lakh kilo-Watt hours per month; and (ii) with no undisputed sums payable to the Distribution Licensee under Section 56 of the Electricity Act, 2003 may, at the option of such consumer, deposit security by way of cash, irrevocable letter of credit or unconditional Bank Guarantee issued by a scheduled commercial Bank.
- 11) The Distribution Licensee shall pay interest on the amount of Security Deposit in cash (including by cheque or demand draft) at the Base Rate of State Bank of India as on 1st April of the financial year for which the interest is payable, plus 150 basis points, provided that the amount of such cash Deposit maintained by the consumer is at least Rs. 50/-.
- 12) Interest on the Security Deposit made in cash shall be payable from the date of its deposit by the consumer till the date of dispatch of the refund by the Distribution Licensee.

Definitions

Maximum Demand

Maximum Demand in kilo-Watts or kilo-Volt Amperes, in relation to any period shall, unless otherwise provided in any general or specific Order of the Commission, mean twice the highest number of kilo-watt-hours or kilo-Volt Ampere hours supplied and taken during any consecutive thirty minute blocks in that period.

Contract Demand

Contract Demand means the demand in kilo-Watt (kW) or kilo-Volt Amperes (kVA), mutually agreed between the Distribution Licensee and the consumer as entered into in the agreement or agreed through other written communication. (For conversion of kW into kVA, the Power Factor of 0.80 shall be applied.)

Sanctioned Load

Sanctioned Load means the load in kW mutually agreed between the Distribution Licensee and the consumer.

In case the meter is installed on the LV/MV side, the methodology to be followed for billing purpose is as follows

- 2% to be added to MV demand reading, to determine the kW or kVA billing demand, and
- „X“ units to the MVA reading to determine the total energy compensation to compensate the transformation losses, where is calculated as follows

$$„X“ = (730 * \text{kVA rating of transformer})/500 \text{ Units/month, to compensate for the iron losses, plus one percent of units registered on the LT side for copper losses.}$$
