

No. CE(Dist)/D-III/Continuous Supply/HT Consumer/

Date **4 MAR 2016**

**Circular**

**No 07388**

To,  
**All Chief Engineers (O&M) Zone,  
MSEDCL.**

**Sub: Maintaining continuous supply to HT Consumer by reducing  
Planned/ Forced outages – Directives thereof.**

**Ref:** Meeting of Hon. Chairman & Managing Director, MSEDCL on Dt.  
19/02/2016.

EHV/ HT consumers are the prime consumers of MSEDCL contributing to major share in revenue. It should always be our priority to provide continuous, uninterrupted and quality power supply to these consumers. Therefore we need to put utmost efforts to attend this by way of effective planning.

Accordingly the Competent Authority has issued following directives:

**1. Planned outage for HT consumers to be reduced to one per month.**

The planned outages should be co-ordinated with EHV outages, as far as possible, so that both the outages can be availed simultaneously with minimum interruption to HT consumers. Also planning of outages for any maintenance works as such shall be restricted to one per month OR planning to have simultaneous outages with EHV but restricting to one per month.

**2. Forced outage in r/o HT consumers to be audited/ to verify the need.**

In this regard, in case of exceptional need of unscheduled outage arises, concerned Superintending Engineer (O&M) Circle will first evolve the alternative arrangement to maintain the supply of the EHV/ HT consumer/s. The necessity and period of the outage shall be reviewed by SE O&M Circle and with his approval only the outage shall be availed, with prior information to EHV/ HT consumer. Also audit in respect of period of outage and loss of units etc. has to be carried out on monthly basis and same shall be submitted to the CE (O&M).

The above shall be enforced with immediate effect.

This circular is available on [www.mahadiscom.in](http://www.mahadiscom.in) website and same comes into immediate effect.
