COMMERCIAL CIRCULAR No. 311

Subject:Revision in Electricity Tariff w.e.f. 1st September 2018 and Implementation
thereof. [For control period 2018-19 (From Sep 2018) and 2019-20]

Reference: Mid-Term Review Order dt. 12/09/2018 in the Case No. 195 of 2017.

The Maharashtra Electricity Regulatory Commission, in exercise of its powers under Sections 61 and 62 of the Electricity Act (EA), 2003, and in pursuance of the MYT Regulations and all other powers enabling it in this behalf, and after taking into consideration MSEDCL's submissions, the written and oral suggestions and objections received and the responses of MSEDCL, and all other relevant material, has issued Mid-Term Review Order dated 12 September, 2018 in Case No. 195 of 2017

Accordingly, the guidelines as under are issued for implementation of the said order of the Commission without prejudice to the rights of MSEDCL to take any action as provided in the law.

1. Date of Implementation:

- i) The revised tariffs are applicable from 1st September 2018 and will continue to be in force till further orders.
- ii) Where the billing cycle of a consumer is different from the date of applicability of the revised tariffs, the tariffs should be applied for the consumption on pro rata basis. The bills for the respective periods as per the existing and revised tariffs shall be calculated based on the pro rata consumptions (units consumed during the respective periods arrived at on the basis of average unit consumption per day multiplied by the number of days in the respective periods falling under the billing cycle).

2. Wheeling Charges - SOP Standards & Non-Compliance:

The Wheeling Charges shall be levied as per the voltage level on which the consumer is connected irrespective of the Voltage level specified in the SoP.

In case of the 9 circles (viz. Pen, Satara, Pune, Vasai, Kalyan-1, Kalyan-2, Palghar, Thane, Baramati) where the MSEDCL network is of 22 KV (absence of 33 KV network) the Wheeling charges would be worked out considering that if the Billing Demand is equal to more than the eligible demand specified at 33 KV level in the SoP Regulations, the consumer will be required to pay the Wheeling charges of 33 KV for that particular month.

3. Load Factor Incentive:

Load Factor Incentive should not be applicable for the month if the consumer exceeds its Contract Demand in that month. Further, the Consumers exceeding Contract demand during the off-peak hours (2200 hrs to 0600 hrs) would also not be eligible for Load factor Incentive for that month.

4. <u>Power Factor Incentive/Penalty:</u>

Penalty for leading power factor also introduced. This penalty will be applicable from prospective effect. As a first step towards the implementation of kVAh billing system, which is devoid of any separate incentive / penalty for power factor, the Commission has decided to reduce the existing PF Incentive / Penalty by 50%. Accordingly, maximum PF Incentive, which is 7% at Unity power factor, has been reduced to 3.5%. Similarly, Penalty for lower power factor has been rationalized.

Whenever the avg. P.F. is more than 0.95 Lag and upto 1, an incentive shall be given at the rate of percentage in Tariff order at the amount of monthly electricity bill, excluding taxes and duties. And whenever average P.F. is less than 0.9 (Lead or Lag), Penal charges shall be levied at the rate of percentage of amount of monthly electricity bill, excluding taxes and duties.

5. <u>Tariff to Waste Processing / Disposal Facility:</u>

In case of waste processing / disposal facility is present in a premise, exclusively for processing the waste generated within the premise, the tariff applicable to such premise/consumer is applicable to the waste disposal facility as well. However, considering the nature of services provided, as far as the waste disposal facilities operated by local self-government bodies are concerned, they may be categorised under LT III or HT IV (Public Water Works and Sewage Treatment Plants) and the waste disposal facilities operated by private operators is categories under the LT X (B) or HT IX (B) – Public Services Others.

6. <u>Creation of new Tariff Category – Charging Centers/Stations of Electric Vehicle</u>:

In order to promote Electric Vehicles, separate tariff category for Electric Vehicle Charging Stations is created. i.e. LT XI: LT – Electric Vehicle (EV) Charging Stations at LT level and HT X: HT – Electric Vehicle (EV) Charging Stations at HT level.

This Tariff category is applicable only for Electric Vehicle Charging Station.

It is further clarified that consumers are allowed to charge their own Electric Vehicle at their premises with the Tariff applicable to such premises falling under the respective consumer category.

Electricity consumption for other facilities at Charging Station such as restaurant, rest rooms, convenience stores, etc., shall be charged at tariff applicable to Commercial Category.

7. Open Access Charges:

Hon'ble Commission has approved Wheeling charge, Cross subsidy surcharge, additional surcharge for the open access consumers. In case of an Open Access consumer procuring power from RE source, the full Cross Subsidy Surcharge (CSS) as determined shall be applicable. The charges for FY 2018-19 & FY 2019-20 are as follows:

In case a consumer exceeds his Contract Demand on more than three occasions in a calendar year, the action to be taken would be governed by the provisions of the Supply Code Regulations.

Additional Demand Charges for Consumers having Captive Power Plant

For consumers having a Captive Power Plant, additional Demand Charges at the rate of Rs. 20/kVA/month shall be payable only on the extent of the Stand-by demand component and not on the entire Contract Demand. - 3) Where the Distribution Licensee requires security from a consumer at the time of commencement of service, the amount of such security shall be estimated based on the tariff category and Contract Demand/Sanctioned Load, Load Factor, diversity factor and number of working shifts of the consumer.
- 4) MSEDCL shall re-calculate the amount of Security Deposit payable, based on the actual billing of the consumer, once in each financial year.
- 5) Where the amount of Security Deposit maintained by the consumer is higher than the security required to be maintained under the Supply Code Regulations, the Distribution Licensee shall refund the excess amount to the consumer in a single instalment.
- 6) Such refund shall be made upon a request of the person who gave the security, and with intimation to the consumer if different from such person; and shall be made, at the option of such person, by way of adjustment in the next bill or by way of a separate cheque payment within 30 days from the receipt of such request;

Definitions

Maximum Demand

Maximum Demand in kilo-Watts or kilo-Volt Amperes, in relation to any period shall, unless otherwise provided in any general or specific Order of the Commission, mean twice the highest number of kilo-watt-hours or kilo-Volt Ampere hours supplied and taken during any consecutive thirty minute blocks in that period.

Contract Demand

Contract Demand means the demand in kilo-Watt (kW) or kilo–Volt Amperes (kVA), mutually agreed between the Distribution Licensee and the consumer as entered into in the agreement or agreed through other written communication. Sanctioned Load

Sanctioned Load means the load in kW mutually agreed between the Distribution Licensee and the consumer.

In case the meter is installed on the LV/MV side, the methodology to be followed for billing purpose is as follows

- 2% to be added to MV demand reading, to determine the kW or kVA billing demand, and
- 'X' units to the MVA reading to determine the total energy compensation to compensate the transformation losses, where is calculated as follows
 'X' = (730 * kVA rating of transformer)/500 Units/month, to compensate for the iron losses, plus one percent of units registered on the LT side for copper losses.

12. The Load Factor is to be computed as follows:

Load Factor = Consumption during the month in MU Maximum Consumption Possible during the month in MU

Maximum consumption possible = Contract Demand (kVA) x Actual Power Factor x (Total no. of hours during the month, less planned load shedding hours*) * - Interruption/non-supply to the extent of 60 hours in a 30-day month.

In case the consumer exceed its Contract Demand (including during the non-peak hours, i.e., 22:00 hrs to 06:00 hrs.) in any particular month, the Load Factor Incentive will not be payable to the consumer in that month

Penalty for exceeding Contract Demand

In case a consumer (availing Demand-based Tariff) exceeds his Contract Demand, he will be billed at the applicable Demand Charge rate for the Demand actually recorded, and also be charged an additional amount at the rate of 150% of the applicable Demand Charge (only for the Demand in excess of the Contract Demand).

Under these circumstances, the consumer shall not be liable for any other action under Section 126 of the EA, 2003, since the penal additional Demand Charge provides for the penalty that the consumer is liable to pay for exceeding his Contract Demand. In case a consumer exceeds his Contract Demand on more than three occasions in a calendar year, the action to be taken would be governed by the provisions of the Supply Code Regulations.

Additional Demand Charges for Consumers having Captive Power Plant

For consumers having a Captive Power Plant, additional Demand Charges at the rate of Rs. 20/kVA/month shall be payable only on the extent of the Stand-by demand component and not on the entire Contract Demand. The additional Demand Charges will be levied on the Stand-by component only if the consumer's demand exceeds his Contract Demand.

Consumers' Security Deposit

- 1) Subject to the provisions of Section 47(5) of the Electricity Act, 2003, the Distribution Licensee shall require any person to whom supply of electricity has been sanctioned to deposit an amount as security in accordance with the provisions of Section 47(1) (a).
- 2) The amount of the Security Deposit shall be equal to the average of three months' of billing or the billing cycle period, whichever is lesser. For determining the average

billing, the average of the billing to the consumer for the last twelve months or, where supply has been provided for a shorter period, the average of the billing of such shorter period, shall be considered

- 3) Where the Distribution Licensee requires security from a consumer at the time of commencement of service, the amount of such security shall be estimated based on the tariff category and Contract Demand/Sanctioned Load, Load Factor, diversity factor and number of working shifts of the consumer.
- 4) MSEDCL shall re-calculate the amount of Security Deposit payable, based on the actual billing of the consumer, once in each financial year.
- 5) Where the amount of Security Deposit maintained by the consumer is higher than the security required to be maintained under the Supply Code Regulations, the Distribution Licensee shall refund the excess amount to the consumer in a single instalment.
- 6) Such refund shall be made upon a request of the person who gave the security, and with intimation to the consumer if different from such person; and shall be made, at the option of such person, by way of adjustment in the next bill or by way of a separate cheque payment within 30 days from the receipt of such request;
- 7) No refund shall be required to be made where the amount of refund does not exceed 10% of the amount of the Security Deposit required to be maintained by the consumer or Rs 300/-, whichever is higher.
- 8) Where the amount of security re-assessed as above is higher than the Security Deposit of the consumer, the Distribution Licensee shall be entitled to raise a demand for additional security deposit. The consumer shall be given not less than 30 days to deposit the additional security pursuant to such demand.
- 9) Upon termination of supply, the Distribution Licensee shall, after recovery of all amounts due, refund the remaining amount of security to the person who deposited it, with intimation to the consumer if different from such person.

- 11) The Distribution Licensee shall pay interest on the amount of Security Deposit in cash (including by cheque or demand draft) at the Base Rate of State Bank of India as on 1st April of the financial year for which the interest is payable, plus 150 basis points, provided that the amount of such cash Deposit maintained by the consumer is at least Rs. 50/-.

12) Interest on the Security Deposit made in cash shall be payable from the date of its deposit by the consumer till the date of dispatch of the refund by the Distribution Licensee.

Definitions

Maximum Demand

Maximum Demand in kilo-Watts or kilo-Volt Amperes, in relation to any period shall, unless otherwise provided in any general or specific Order of the Commission, mean twice the highest number of kilo-watt-hours or kilo-Volt Ampere hours supplied and taken during any consecutive thirty minute blocks in that period.

Contract Demand

Contract Demand means the demand in kilo-Watt (kW) or kilo–Volt Amperes (kVA), mutually agreed between the Distribution Licensee and the consumer as entered into in the agreement or agreed through other written communication. (For conversion of kW into kVA, the Power Factor of 0.80 shall be applied.)

Sanctioned Load

Sanctioned Load means the load in kW mutually agreed between the Distribution Licensee and the consumer.

In case the meter is installed on the LV/MV side, the methodology to be followed for billing purpose is as follows

- 2% to be added to MV demand reading, to determine the kW or kVA billing demand, and
- 'X' units to the MVA reading to determine the total energy compensation to compensate the transformation losses, where is calculated as follows
 'X' = (730 * kVA rating of transformer)/500 Units/month, to compensate for the iron losses, plus one percent of units registered on the LT side for copper losses.
