To expedite the work a meeting was held with the suppliers on dtd. 15.01.2019 at HSBC Bank Bldg, Churchgate, Mumbai and for smooth execution of project Executive Engineer (Admin) of the respective circles are nominated as the nodal officer to monitor the work & to resolve the day to day issues of agencies while executing the work.

The responsibilities of Nodal officers are as under:

- The Nodal officer shall issue Identity card to installation team of Agency executing the work.
- The Nodal officer shall ensure that meters received against the order are being utilized strictly only in R-APDRP towns under circles as mentioned above. (list enclosed)
- The Nodal officer shall ensure that after receipt of meters at stores, SR notes are released as per the procedure.
- The store in-charge shall move the stock in ERP system up to division level but kept physically at stores for issuance to the agency.

- The nodal officer will provide material requisition for concerned R-APDRP towns to the agency.
- After taking meters into stock, on receipt of material requisition from Agency through Nodal officer meters are to be directly handed over to the agency.
- The Nodal officer shall make arrangement for required nos. of seals to be put up on terminal covers of meters and make available to the installation team of Agency and also keep proper accounting. Also service wire if required is to be provided to agency by Nodal officer.
- The Nodal officer shall ensure the availability of sufficient nos. of SIM cards to be provided by HO IT under umbrella scheme for configurations of RF DCUs in consultation with local IT team. Further, will also co-operate with installation team of Agency for power supply arrangement of RF DCU.
- The old removed meters are to be deposited by the agency at the divisional store location which are to be accepted immediately.
- The nodal officer shall give wide publicity of the works through newspaper or local TV or other media and to meet local public representatives / District collector / Tahsildar, etc. to make awareness amongst the consumers that this AMR project will eliminate their billing complaints and facilitates the correct bills of their actual consumption timely and create the favorable atmosphere among the consumers for mass replacement.
