No. CE (Dist)/D-III/NSC/ **No 14 1571**

Date: **21 MAY 2019**

To,  
All Chief Engineer,  
MSEDCL, O&M Zone.

**Sub:** Clarification guidelines for development of Infrastructure by an Applicant for NSC and refund of the expenditure on Infrastructure.

**Ref:** 1. T.O. Circular CE(Dist)/D-III/NSC/30011 Dtd. 20.12.2018.  
2. Supplementary guidelines vide this office letter  
CE(Dist)/D-III/Technical/7919 Dtd. 19.03.2019.

Vide circular under reference no. (1), methodology to be adopted for NSC has been explained. Further vide letter under reference no. (2), Supplementary guidelines for infrastructure development for release of NSC scheme have been given. As per clause no. (2) of letter dtd. 19.03.2019, it is mentioned that in case of urgency, the developers / applicant / consumers or a group of consumers can opt for development of infrastructure by themselves paying supervision charges to MSEDCL. In such cases, cost of material plus erection charges along with GST will be refunded by MSEDCL in five equal instalments after commissioning and handing over of entire infrastructure to MSEDCL, provided these works are not executed under Dedicated Distribution Facility scheme (DDF). HO has received no. of queries from field offices regarding refund provisions.

In view of above, following clarifications are made to avoid any confusion regarding refund provisions from filed offices.

1. The provision of refund of works cost of material plus erection charges along with GST is applicable to those cases where applicants / developers have requested to allow, due to urgency, to develop the required Infrastructure, for release of NSC, by themselves by paying supervision charges to MSEDCL. It is made clear that the infrastructure to be developed shall be only incremental infrastructure required for release of new service connection. Generally, this provision shall be used for a group of consumers in the area where we already have infrastructure. Further it is clarified that in such cases, the Service Connection Charges (SCC) as per rule shall be recovered from the Applicant/Developer/Occupant as Cost of material plus labour charges and GST for Service Connection work will be refunded.

2. The refund provision shall not be used for release of new service connection under any category in remote and isolated areas where no existing infrastructure is available and entirely new infrastructure is required to be developed. In such cases, a DPR for erection of new infrastructure shall be prepared and submitted to Competent Authority for administrative approval and provision of funds. The work shall be undertaken for erection only after getting approval from Competent Authority. In case the applicant wants the power supply urgently, he can ask for Dedicated Distribution Facility (DDF) wherein he bears the entire expenditure towards development of infrastructure for release of NSC. In such cases, no refund to the applicant will be given. However, infrastructure developed under DDF will be exclusively used for the applicant only.

All are requested to implement the instructions scrupulously.

  
Chief Engineer (Distribution)
