

P-Com/ED & TOSE/17593

Date:-25/06/2019

**COMMERCIAL CIRCULAR No. 317**

**Sub:-** Guidelines on Submission of Electricity Duty (ED) and Tax on sale (TOSE) information to Electrical Inspector Offices and GoM.

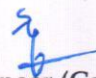

**Ref :-** 1) Meeting held on 19.01.2019 by Joint Secretary Energy, GoM.  
2) Approved Office Note No. P-Com/ Accts/ED TOSE/137 dt. 05.02.2019.

MSEDCL has implemented centralized billing, collection on centralized OCCS platform with data integration for Billing through HO IT system. Therefore, all type of information/data throughout the State is now collectively available in the HO IT system of MSEDCL. Accordingly, the assessed Electricity Duty on billed energy and actual collected Electricity Duty as per IT report is available centrally which can be submitted directly to Electrical Inspector Offices from HO. Further, submitting data Centrally will avoid the difference which was found during reconciliation of the figures of EI office and figures intimated by MSEDCL field offices.

Accordingly following revised methodology will be enforced,

- A) Electricity Duty & ToSE data generated through Centralized IT shall be submitted to GoM, Electrical Inspector's Offices and MSEDCL Field offices through HO only on quarterly basis.
- B) The field offices (Circle Office) shall not communicate any figure of ED/TOSE to their respective Electrical Inspector's Offices or to any other entity and direct them to HO.

Hence, it is requested to follow above policy decisions scrupulously from FY 2018-19 to avoid the difference during reconciliation of the figures of EI offices and figures intimated by MSEDCL field offices.

  
Chief Engineer (Commercial)
