Date: **19 JUN 2023**

Sub: Amendment to Circular - Guidelines on Electric Vehicle Charging Station (EVCS)

Ref: EVCS Circular NO, CE(SPD)/SPC/EV/13/2194 dtd. 28.01.2021

The circular for Guidelines on Electrical Vehicle Charging Station (EVCS) was issued vide reference above. Hon. MERC has issued revised tariff order on 31.03.2023. Accordingly, the Sr. No. 13 - Applicability of tariff of referred circular is amended as under:

13. Applicability of tariff:

Sr. No.	EVCS Installation purpose	Applicable tariff
a)	Self use	Same as applicable for main purpose. Load to be enhanced OR Consumer may take separate connection under EV tariff category for charging their EVs
b)	Common use in society for society members only.	Tariff of common use is applicable. OR Consumer may take separate connection under EV tariff category for charging their EVs
c)	For society members and outside vehicle also permitted	EV Tariff. Separate electric connection to be given.
d)	Public charging station / Semi-Public Charging station	EV Tariff LT-VIII and HT-IX.
e)	Public Transport Company premises EV station	EV Tariff. Separate electric connection to be given.
f)	Retail outlets (ROs) of oil Marketing Companies (OMCs)	EV Tariff. Separate electric connection to be given.
g)	EV Station in company for employees	a) If supply is used for existing connection for charging of company or employee vehicle, then same tariff is applicable as per existing consumer tariff. b) Separate connection for EVCS can be taken for charging of company or employees vehicle, then EV tariff LT-VIII and HT-IX will be applicable.
h)	EV charging station in the premises of existing LT/HT connection.	Separate connection is permitted and Tariff applicable is EV charging station.

All concerned should take note of above guidelines for releasing Electric Connection to Electric Vehicle Charging Station.
