JUDGEMENT

The main grievance of the consumer is, that the bill issued by the respondent is excessive. The bill may be therefore revised and it be issued as per meter reading. The consumer further submitted that D.P.C. & interest may not be charged.

The consumer asserted that, at present, the meter reading is 5009. He accordingly submitted application.

Heard the consumer in person. Heard the submission of Nodal Officer read the & reply filed by the respondent. The Nodal Officer has submitted that the meter is slow, but there is no evidence to that effect. There is no reply to that effect. The submission of Nodal Officer to that effect thereby carries no weight. There is no another submissions on behalf of Nodal Officer.

Hence considering submissions of the parties, this Forum is of the view that, the respondent should take fresh present meter reading and issue revised bill. There shall not be D.P.C. & interest on costs. Hence this Forum proceed to pass following order.

ORDER

01. The respondent MSEDCL/GTL shall take present existing meter reading and shall issue revised bill within a week.
02. The consumer shall pay the revised bill within a week from the date of bill.
03. There shall not be D.P.C. or interest.
