ORDER PASSED ON 24.01.2018

The applicant presented this application under Regulation 6.4 of the
MERC (CGRF & EO) Regulations 2006.

On 24-01-2016 both the parties were present. They were heard.

The applicant argued that he submitted a complaint to the respondent in March 2017. He was getting excessive electricity bills. His meter was replaced in July 17. He has no complaint about the bills, he got from July 2017. The applicant requested that the respondent may be directed to revise the bills for the period from March 2017 to June 2017. The bills may be revised either on the basis of average consumption prior to March 2017 or the average consumption indicated by the new meter installed in July 2017.

The respondent stated that on the basis of the complaint the meter of the applicant was replaced in July 2017. It was tested and it was found to be O.K. So the bills issued to him can not be changed.

We have heard the parties. We have perused the documents. At the time of hearing the forum asked the applicant as to whether he is ready to get the old meter tested once again. However he denied the proposal. The meter was once tested and it was found to be OK. In absence of any evidence it is not proper to accept the request of the applicant. Hence we pass the following order.
