“.....Regulation 10.5 of the Electricity Supply Code Regulations, 2005, mandates that the charges which remained unpaid by the erstwhile occupier of the premises shall be recoverable from the new occupier of the premises, not being a legal heir, restricted to a maximum period of six months of the unpaid charges of electricity supplied to such premises. In this case, the Respondent has recovered the entire energy bill arrears for the period of February, 1999 to June, 2004, unpaid by the erstwhile occupier, which is clearly contrary to the said regulation 10.5. The Respondent is, therefore, hereby directed to work out the charges of electricity supplied during a period of six months prior to the date of disconnection of supply i.e. 11th June, 2004, deduct this amount from the amount recovered from the Appellant and refund the excess amount recovered, along with interest at bank rate of Reserve Bank of India.”
