   "..............In order to discharge the universal supply obligation u/s 43 of EA 2003 and recovery of
   charges u/s 46 of EA 2003, and MERC Electricity Supply Code ,Regulations, 2005 and in compliance
   of MERC Order dated 8th September 2006 in case No.70/2005, the following procedure shall be
   followed.

   1) For consumers falling in BPL and weaker section and residing in any area including Area "C" ,
   MSEDCL through special schemes develop infrastructure on priority and release connections.

   2) Chief Engineers and their field officers will regularly and proactively review the developments
   taking place in their Areas and plan and prepare schemes/DPR for creating infrastructure for
   extending electric connections to consumers in these areas and obtain funding from Financial

Institutions and keep the works on shelves and in appropriate cases keep the contracts and materials (in case the work is to be done through non-turnkey contractors) ready for execution. As soon as demand from potential consumers come, the work under these schemes should be executed and connections should be released. In areas where fast and concentrated, and large developments are taking place, the field officers shall proactively plan and create backend infrastructure such as creation/up gradation of substations to meet immediate future demand.............."
