#### 8.8 Tariff for small shops operated from home

**MSEDCL's submission:** MSEDCL has proposed that mixed load consumers, who are situated in Gram Panchayat areas only and running small household businesses, can be granted preferential LT-I Tariff without installation of separate meter subject to monthly usage of electricity is limited within 100 units. In case such consumer exceeds the limit of consumption of maximum 100 units per month, then after third such occasion, the consumer will be treated as a commercial consumer and will be billed with commercial Tariff subsequently.

**Commission's Ruling:** Many consumers and consumer representatives have suggested accepting this proposal with the modification that the upper limit for shifting to commercial category for such consumers should be 300 units instead of 100 units. The consumers have also suggested including such consumers in residential category in entire license area of MSEDCL instead of only those consumers which are located in gram panchayats. The Commission agrees with MSEDCL's submission that consumers running small businesses from households may be provided relief from high Tariffs of Commercial categories, since this will cause a large impact on their livelihood. Taking into account the various suggestions from consumers, the Commission is of the view that for consumers who consume less than 300 units a month need not be subject to different tariffs. Hence, the Commission has decided that categories of consumers who consume less than 300 units a month would be applied the tariff of LT-I (Domestic), subject to conditions laid down in the Tariff schedule.

30. Considering the above submissions of MSEDCL and the observation of the Committee regarding different possible interpretation of the Commission's Order, the Commission accepts the reasoning submitted by MSEDCL for delayed implementation of the Order and hence will not like to invoke any action under Section 142 or 146 of the Electricity Act

2003. However, the Commission would like to clarify that it is a duty cast on the Licensee to implement each and every Order of the Commission in its letter and spirit. In case, licensee has any doubt about interpretation of the Order of the Commission, they should file clarification Petition before the Commission for correct implementation of the Order. Issue at 'b' ruled accordingly.

31. With above, the Commission directs MSEDCL to allow the benefit of LT-Residential tariff to the consumers operating small business or any activity which technically may be classified as commercial / industrial / non-residential from part of their residence, irrespective of such consumers are situated in rural or urban area, subject to the condition of monthly /yearly consumption as specified in tariff Schedule in Order dated 16 August, 2012. Such tariff should be made applicable from date of applicability of Order i.e. 1 August 2012 and MSEDCL should refund the excess recovered amount, if any to the consumers. MSEDCL should modify their Circulars to give effect to this ruling of the Commission.

- 1) The LT-I Residential tariff is applicable to the consumers operating small business or any other activity from part of their residence, which technically may be classified as Commercial/Industrial/Public Service / Non residential, who consume less than 300 units a month, and who have consumed less than 3600 units per annum in the previous financial year. The applicability of this Tariff will have to be assessed at the end of each financial year. In case any consumer has consumed more than 3600 units in the previous financial year, then the consumer will henceforth not be eligible for Tariff under this category. This provision is applicable to such eligible situated in rural or urban area.
- 2) The above categorization as LT (I) should be done with retrospective effect from dtd.01.08.12 and refund due to categorization as above ie. LT(I) w.e.f. 01.08.12 shall be given by way of adjustment in ensuing bill only.
- 3) such consumers where the consumption is more than 3600 units in FY, needs to be recategorized first as per the uses under Commercial/Industrial/Public Service etc category after giving notices and separate connection for residential use should be released for such consumer.
