4) Distribution Licensee in its reply submitted as follows :

- i) M/S Yak Institute Of Management is consumer of MSEDCL under Khopoli sub division bearing consumer no. 031380254941. The above consumer is 3 phase consumer and date of connection is 28/04/2006.
- ii) From date of connection, we are levying commercial tariff to the consumer as per the application of consumer and load sanction documents. There is no any grievance of consumer or application of consumer for wrong application of tariff.
- iii) On dated 16/10/2016 first time, the consumer has applied for change of tariff, this is first application of consumer for change in tariff. After receipt of above application, the section office inspected the premises. After receipt of inspection report stating education activity, we have changed the tariff of above consumer in the month of Jan-2017 from commercial to public service.
- iv) The Reg.No.4.14 (B) MERC (SOP) Regulation 2010 is as below.

“Change of category for use of supply in reference of tariff schedule shall be effected within the second billing cycle on receipt of application and payment of necessary charges”.

- v) As per MERC (SOP) Regulations 2005, schedule 7(11) page no.16 the time period for change of tariff second billing cycle from the date of application.
- vi) Without any application for consumer, we have no any knowledge or information about the actual date of commencement of Education activity carried out In the said premises.
- vii) As per right of inspection, use of electrical energy for particular purpose can we know after inspection of premises before inspection we can't determine whether use of electrical energy is for commercial or educational purpose, also inspection carried out after receipt of application.
- viii) There are around 32000 no. of live L.T. consumer in Khopoli sub division and it is not possible us to inspect each and every consumer's premises and to check the usage of power supply and actual business activity.
- ix) Its is the of consumer to for change of tariff on the basis of its actual use of power supply. It is practically not possible to us to check the business activity of each and every consumer due to large numbers of consumers.
- x) The application of consumer dtd.24/10/2016 is first application of consumer we have not receive any application for change of tariff prior to this application.
- xi) The provision of MERC (SOP) Regulations quoted hereinabove are very clear and specific. It is specifically mentioned in Reg.4.14 (B) of MERC (SOP) regulations 2014 consumer must file application for change in tariff and MSEDCL shall do the same within second billing cycle.
- xii) The appellant unconditionally paid the electricity charges with COMMERCIAL rate without any protest.
- xiii) The charges of tariff can be done with prospective effect and it cannot be done with retrospective effect. Now at this stage we cannot determine the tariff of applicant for past period of year 2014 to Oct 2016. We are not having any record/evidence whether

the applicant is using supply for education purpose or any other commercial purpose don't know the business activity of appellant in past years.

- xiv) HON APTEL 2013 case no.131 pass the order that retrospective recovery can not be claimed accordingly it is requested to dismiss request of appellant.
- xv) Consumer has not followed procedure i.e. He has not submitted his application in IGRF and directly submitted the application in CGRF.

5) We have heard both sides. It is borne out from the admitted facts that the Consumer was being charged under commercial tariff since the date of connection. On 24/10/2016 Consumer gave an application for change of tariff from commercial to public service. Thereafter Section Officer inspected the premises and submitted a report as regards activity of the Consumer & changed tariff in month of Jan-2017. As per MERC (SOP) Regulation 2014, Regulation 4.13 (B), the time period for change of tariff is second billing cycle from the date of application. This being so Consumer asks for refund of tariff difference for preceding two years. To this, a simple question is asked on behalf of the Distribution Licensee as to how would they be able to exercise their right of inspection retrospectively? Consumer Representative Mr.Shende was unable to satisfy this query. Tariff is always changed prospectively, even where the Distribution Licensee on inspection finds for any Consumer that, actual tariff applicable is on a higher side. No retrospective recovery is allowed to Distribution Licensee from the Consumer as well in such cases. This being so, no retrospective refund of difference in tariff can be granted to Consumer in this case, when the right to inspection of the Distribution Licensee for the retrospective period stands prejudiced.

6) In the above view of the matter other points of limitation etc. become redundant.

7) Consumer Representative Mr.Shende sought to rely on the ombudsman orders in Rep.No.36, 39 & 40. We have gone through the judgment cited. A question arose whether ombudsman's judgments fall in Art.141, 142 of the constitution of India in order to operate as precedent. We may not however strictly apply Art.141, 142 but may have proceeded to see those judgment as guidelines but then the judgments cited do not lay down a ratio on the question before us about prejudice caused to Distribution Licensee in their right of inspection. It is for this reason there being no ratio in the judgments on the question raised we are unable to follow the same as guideline.

8) It is to be seen, however, whether there is any delay in giving effect to the change of tariff even after receipt of the application from consumer. In the present case application was

given by consumer on 16-10-2016 where as effect was given from Jan 2017. Thus there is SOP violations of Regulation 4.13 (B) as the effect was not given in the second cycle but was delayed till Jan 2017. That being so, Consumer is entitled to meantime difference.

9) Now coming to SOP compensation, we have carefully gone through SOP Regulations viz 12.2 and 12.3. It is clear there from that, a consumer, in order to move CGRF for claiming SOP compensation, has to first claim it before Distribution Licensee within 60 days under regulation 12.3. No such claim was made before Distribution Licensee herein, as such no representation can be made to CGRF under SOP Regulation 2014.

10) In the above view of the entire matter, Grievance partly succeeds.

Hence the order.

ORDER

- 1) Grievance application of Consumer is partly allowed
- 2) Distribution Licensee to refund the tariff difference on account of not giving effect to change of tariff in the second cycle after receipt of application from the consumer.
- 3) Claim for retrospective refund of tariff difference prior to the application of the consumer is rejected.
- 4) Claim for SOP compensation is also rejected.
- 5) Compliance be made within 45 days and report be made within 60 days from the date of receipt of this order.
