**Opinion of Member :**

1. Abnormal consumption of Electric Bills was shown as below :

- |    |                          |   |                          |
|----|--------------------------|---|--------------------------|
| 1. | October 2010             | - | 5226 Units               |
| 2. | Feb. 2013                | - | 4799 Units               |
| 3. | March 2013 to April 2015 | - | 300 units to 1200 units. |
| 4  | January 2016             | - | Bill of Rs. 393730/-     |

No record is available with MSEDCL of change of Electric meter of Railway Station Padali Tal Igatpuri Dist. Nashik with signature of concerned railway authorities at that time & also initial meter reading at the time of change is not available . As per rule these reports should be given to consumer and billing for preparation of bills on computer.

2. No photo meter reading is available, Electric bills are given excessive and hypothetical reading with effect from March 2007 to Sept. 2015. This unfair act is clear and deliberate violation of the directives of honorable Supreme Court Civil appeal No. 2846 of 2006 which is communicated through commercial Circular No. 65 dated 20/10/2007. This act is also violation of SOP rules 2014 vide which average bills not allowed after one month. After examining entries inCPL only entries are made but no previous reading & current reading is there. Locked. Inaccess, RNA this position is not possible in case Railway where 24 hours staff is working. Meter reading agency have not taken meter reading from Mar.2007 to Sept. 2015.

3. The complainant is Central Govt. Organization & had maintained office record of every month. Electric consumption in Register which shows the monthly consumption average 140 to 160 units per months this should be accepted as authentic record. The connected load of consumer is 1.4 K.W.

4. After consumer's complaint MSEDCL has not produced and documentary evidence even after 15 days time period allowed to them after hearing of forum. It is therefore observed that MSEDCL has no record available regarding meter change report, S.V. Report, Meter reading report, and joint inspection report.
