Date: 06.10.2021

## Circular-55

**Sub.:** Temporary revision in time schedule for giving 3- phase power availability to Ag Load Management (Ag LM) scheme feeders.

**Ref.:** 1) Circular No. 51 ED (Comm.)/LM/24225 Dt. 04.10.2017.  
2) CE(PP)/LM/AgLM/23140 Dt. 30.09.2021.

.....

Hon'ble MERC vide order dated 09.05.2011 has mandated to give minimum 8 hours power supply to Agricultural consumers. However, presently 3-phase power availability of 8 hours during day time or 10 hours during night time to Ag LM scheme is being provided on rotational basis as per letter under ref.(2).

Now, severe coal shortage scenario is prevailing thought the nation which has caused depleting coal stock at most of contracted thermal generating stations. The coal stock at some of the generating stations is below critical level. It has lead to drastic reduction in the generation availability and considerable gap in demand and availability of the power. Consequently, it has become difficult to manage load-generation balance at peak load hours.

The Hon'ble Commission in its order dated 09.05.2011 in case no. 81 of 2010, regarding three phase power supply to Ag feeders, has mentioned that:

*"The norms for power supply to Agricultural pumps shall remain 8 hours per day only. Whenever there is surplus power in the System, power supply up to 10 hours per day shall be given at night and 8 hours per day power supply shall be given during day time (excluding peak load hours) on rotational basis. In case of critical System condition, the power supply to Agricultural Pumps shall be restricted to 8 hours per day only."*

Hence, in view of the above order, in spite of the prevailing power shortfall scenario due to coal shortage, MSEDCL will exert all out efforts to maintain 3-phase power availability of 8 hrs per day i.e. 8/8 hrs during day/night time on rotational basis to agricultural pumps. Accordingly, time schedule for 3-phase power availability to AGLM scheme feeders has been revised and enclosed herewith as **Annexure-A**.

It is instructed to implement the revised time schedule from **00:00 hrs of 07.10.2021** till further instructions.

Further, if the 3-phase power availability is being provided during 18:00 to 22:00 Hrs to any Ag LM feeder or LIS feeders due to any system constraint, the same shall be stopped immediately.

The above time schedule is temporary and it will be reviewed after increase in generation availability and necessary instructions will be conveyed accordingly.

In view of the critical system condition, all concerned Chief Engineers O&M zones are instructed to ensure that all above instructions are followed scrupulously.

  
Chief Engineer (Power Purchase)
