

Ref. No.: CE(PP)/LM/AgLM/MSKVY/ 27097

Date: 11.09.2023

To,
The Chief Engineer,
O&M Zone Kolhapur,
MSEDCL.

Sub: Providing 08 hours daytime 3-phase power supply to Ag consumers connected on AGLM feeders of substations where new solar power projects are connected and commissioned under “Mukhyamantri Sour Krishi Vahini Yojana (MSKVY)” in Kolhapur District.

| 13. MERC Order in Case No.178 of 2018 | dt. 19.07.2018. |
| 14. Mukhyamantri Sour Krishi Vahini Yojana (vide G.R dated 14.06.2017 & 17.03.2018) | |

.....

Presently, as per Hon'ble MERC order under **ref.(13)** dated 19.07.2018, circular under **ref. (11)** and letters under **ref. (1-10)**, from dt. 02.10.2020 onwards, the 3-phase power supply availability has been given for 8 hrs during day time on Solarized AgLM feeders in the state where solar power projects of capacity 2 to 10 MW are connected and commissioned under “Mukhyamantri Sour Krishi Vahini Yojana” subject to the conditions, viz.

- 1) The Load Management at sub-station level shall be done depending upon availability of solar power, loading on Power Transformers and Ag feeders. In real time operations, depending upon loading/availability of power from solar plant, switching OFF/ON of feeders to be done manually. Further time schedule may be revised if required and implemented after approval from the Chief Engineer of the concerned O&M zone. The same shall be intimated to Chief Engineer (Power Purchase), HO, Mumbai.
- 2) It should be ensured that capacitor banks of proper ratings are installed at each of these substations and are in healthy working condition in order to maintain standard system voltage and power factor.
- 3) The power availability lower than 8 hrs during day time on any feeders because of tripping/breakdown of concerned solar feeder is to be compensated. If same Power Transformer remains under loaded, then the daytime power supply shall be given on same day only. However, if the power transformer gets overloaded during day time because of this additional load, the loss of power availability hours on that feeder shall be compensated during night hours. The intimation of same to the concerned Ag consumers shall be given.

Now, the Chief Engineer (RE) has reported **01 nos.** of new Solar Power Projects commissioned under MSKVY, in **Kolhapur district**. Accordingly, district & taluka wise list of the 01 nos. of new SPPs with its associated MSEDCL substation and respective Ag outgoing feeders with allotted 3-phase power availability time schedule is prepared and attached herewith as **Annexure-A** for implementation.

Accordingly, the 3-phase power availability time schedule for these Ag LM scheme feeders as per **Annexure-A** will be implemented **with effect from 00:00 Hrs of 12.09.2023.**

The feeder wise compliance of arrears recovery shall be reported for monitoring purpose to the **"Special Team-B"** which has been formed at head office for implementation of **Govt. Ag Policy-2020** and assigned exclusive task of **"Ag arrears recovery through special recovery scheme"**.

The instructions shall be followed scrupulously.

Encl. As above.

Chief Engineer (Power Purchase)
