20.	Ltr. No. CE(PP)/LM/AgLM/KUSUM-C/24492	Dt. 07.08.2024.

.....

Presently, 3-phase power availability of **8 hours** during **day time** or **8 hours** during **night time** to Ag LM scheme feeders is being provided as per **circular no. 55** under **ref. (1)** and letter under **ref. (3)**. Further, as per the circular under **ref. (2)**, it has been decided to rotate the timings of availability amongst the divisions in a particular zone on monthly basis in addition to existing rotation policy of day and night time slots of 3-phase availability in particular division on weekly basis. Accordingly, division wise 3-phase power availability time schedule to Ag LM scheme feeders for the month of **January-2025 to March-2025** is prepared and attached herewith as **Annexure-A**.

The above three phase power availability time schedule to Ag LM scheme feeders is to be implemented with effect from **00.00 Hrs of 01.01.2025**. **However, for technically feasible Ag LM feeders 3-phase power supply shall be provided during daytime only as per time slot-2 given in Annexure-A.**

Further, please refer to the 3-phase power availability time schedules and guidelines issued vide circular under **ref. (4)** and letters under **ref. (5 to 20)** for Solarized Ag LM scheme feeders on which 3-phase availability is being given during day time under Mukhyamantri Sour Krushi Vahini Yojana (MSKVY), KUSUM-A & KUSUM-C Schemes.

**Furthermore, the daytime power supply to all agricultural feeders solarized under "MSKVY 2.0 Scheme" will commence immediately the next day after commissioning of a solar power plant. The solarized Ag feeders emanating from same power transformer or substation will be provided 3-phase power supply for 8 hours during daytime only(not in night time) as per a staggered time schedule between "08:00 hours and 17:00 hours" every day.** For example, if there are 3 Ag Feeders A, B & C connected on power transformer/sub-station then the time schedule of each Ag feeder should be such that maximum Ag load will be catered through the local solar generation. The time schedules for the Ag feeders, based on the local solar generation profile, are as follows;

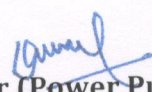

Feeder A : 08:00 hrs to 16:00 hrs.

Feeder B: 08:30 hrs to 16:30 hrs.

Feeder C: 09:00 hrs to 17:00 hrs.

The instructions given above should be followed scrupulously.

**Encl:** As above
