CIRCULAR NO-18

Sub: Guidelines regarding release of New temporary connection for religious festivals

---

MSEDCL issues new temporary connections for various purposes as per the requirement of applicant. During religious festivals like Ganesh Chaturthi, Navratri, Eid, Christmas, etc., MSEDCL issues temporary connection for short period. It has been observed that these temporary connections are released with conventional or non-smart meters due to which billing & recovery gets delayed. Now it is directed that temporary connections for religious purposes shall be released through prepaid smart meters only.

In this regard, temporary connections for religious purposes must be released through prepaid smart meters only hereafter.

All field offices are requested to follow above instructions and guidelines scrupulously. The copy of circular is available on www.mahadiscom.in
